

### Photosynthesis

#### Drawing Down Dollars

- Stewards and caretakers of public resources
- Partners in Washington State's Medicaid Transformation Project
- Translating large contracts to place-based work

### Nutrient Exchange

#### Community-Directed Grant Making

- \$5.4M distributed to Network partners in 2023
- 70 partners submitted collaborative projects in 2024, with \$3.5M to be distributed this year
- Decision makers are Network members (peers)

### Mycelial Signaling

#### Collaborative Action Network

- Investing in capacity building and creativity
- 150 community and clinical partners, & growing
- Virtual Learning Sessions + In-Person Convenings
- Newsletters transmit information about resources
- 1:1 consultations around fund development

### Ecosystem Restoration

#### Investing in Transformative Resiliency

- Acknowledging inherited legacies and addressing systems that perpetuate inequities
- Meeting urgent needs and increasing capacity for community care in times of emergency
- Centering multi-solving and community-led solutions

### Secondary Growth

#### Embracing Patience

- Leading with Love
- Sharing our stories and listening deeply
- Nurturing and sustaining trust in each other
- Championing youth-led initiatives

## Embracing an Ecosystem of Complexity: Envisioning a new ecological model of mutual support, connection, and belonging in fund development

We envision a vibrant North Sound region with the necessary conditions for all community members to thrive, where all partners in the work have the resources they need, and all contributions are valued and celebrated. We believe that funding can be rooted in sustainability, abundance, and accessibility, empowering us to build collaborative solutions.
