

Tools for envisioning better futures

At Just Visions, we see visionary leadership as a tool to motivate people toward change. Leaders and organizations can collectively develop and share their visions for better futures.

Craft a vision of the change you want to see in the world.

Mission

Describes why your organization exists. The principles and values that are true in all of your work.

Vision

Imagine the day when your work for justice is truly, radically successful. What will then be true?

Expression

Stories, illustrations, and actions that evoke the future you are building. Share your vision in a way that people can experience hope of a better future.
