Personal & leadership narratives

Four threads of TEL (mindfulness, social and emotional learning, equity and social justice, and leadership)

- Importance of narratives and shared identities
- Narratives in times of deep conflict
- What should be the goal of leaders?

Belonging & the Beloved Community

“I am because
...yOU are”

How to lead for belonging in a divided society

The Circle of Human Concern

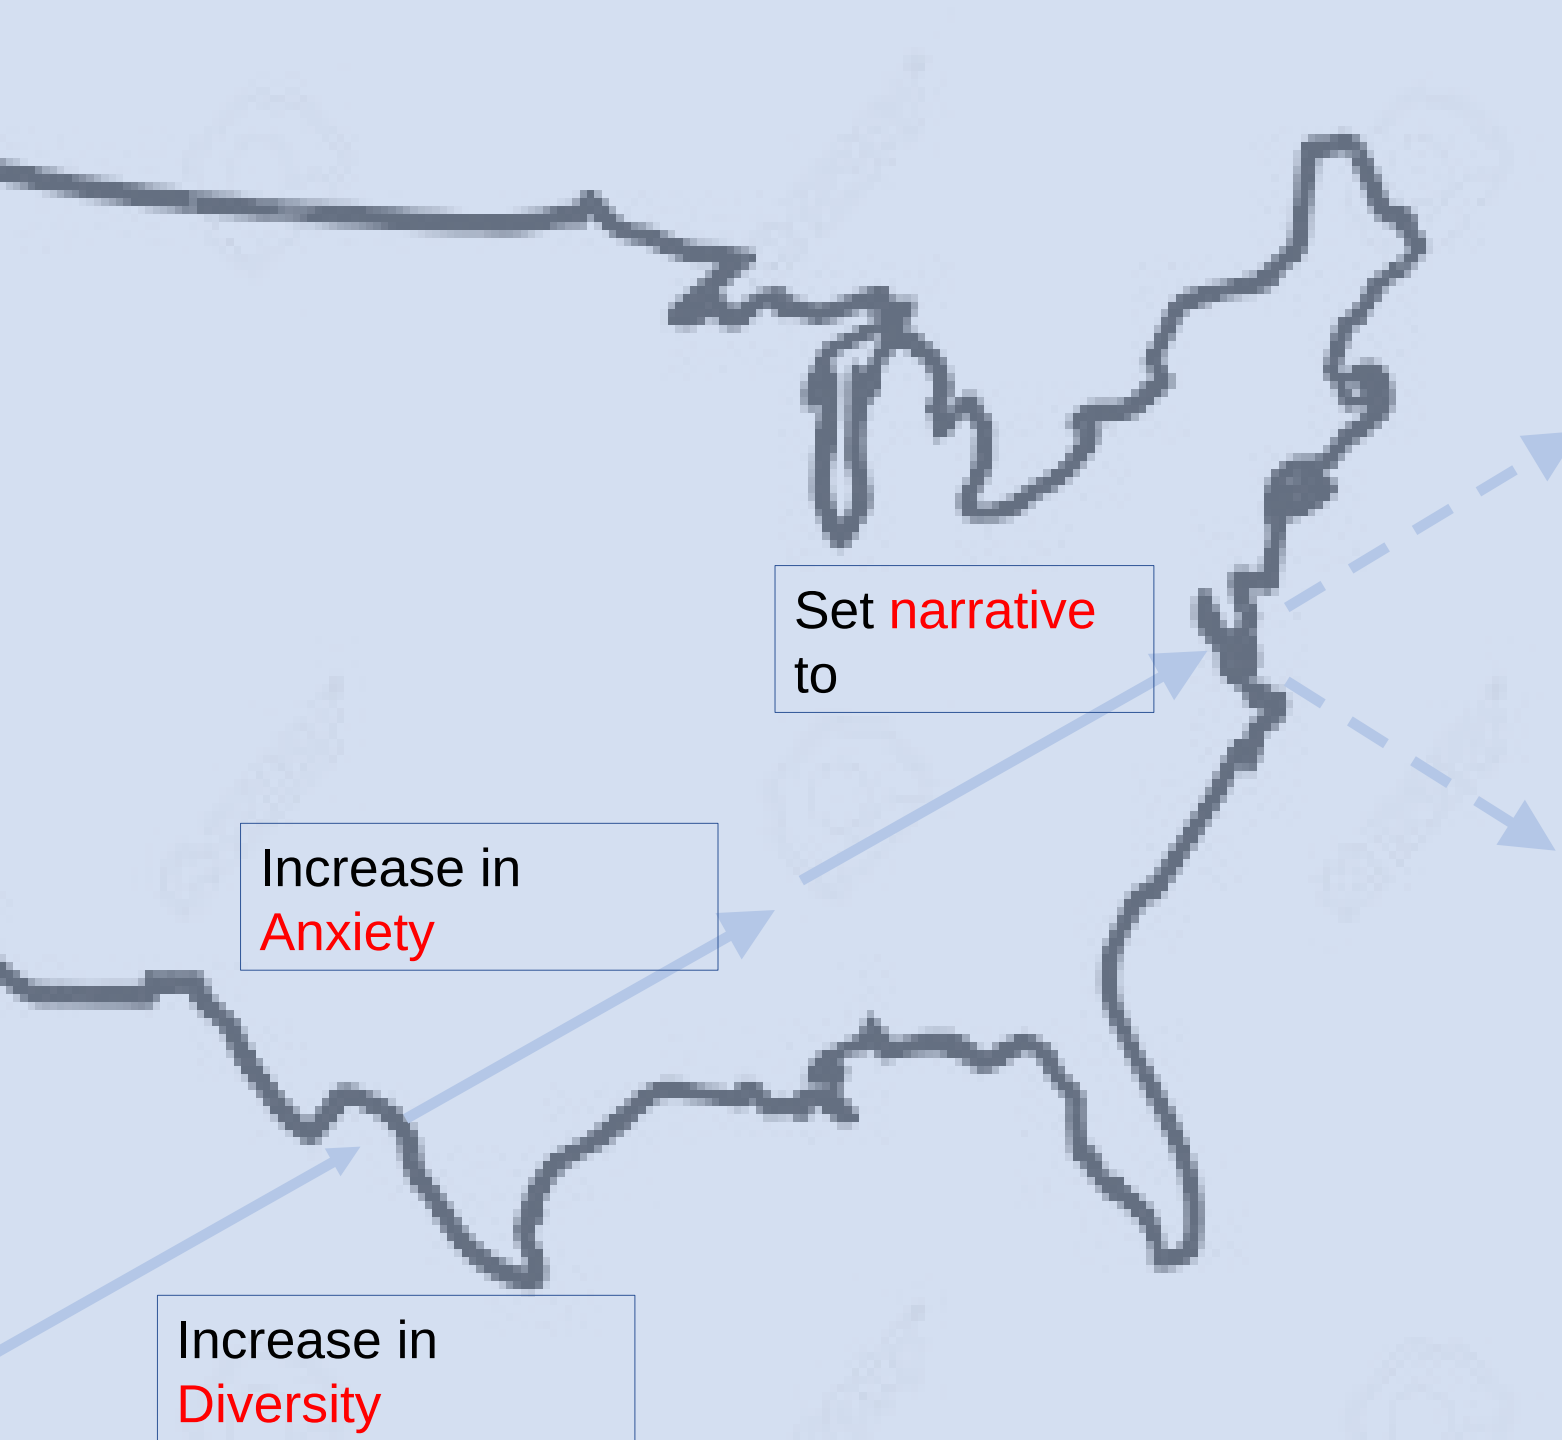

**The problem of “Othering” is the
problem of the 21st century**

Rapid change produces collective anxiety:

Bridging Communities

Belonging
Empathy
Inclusion

Breaking Communities

Fear
Anger
Othering

Indices of Othering

Lack of effective voice

Lack of representation

Lack of recognition

Lack of power

People can experience strong othering in one or some of these areas and low or no othering in others. When someone experiences othering on all of these indices, then the othering is more likely durable. High durability also exists when othering happens between the interpersonal, structural, and cultural.

Othering is a generalized set of common processes that engender marginality and group-based inequality across any of the full range of human differences

A close-up photograph of many red, glossy spheres arranged in rows, with one blue sphere standing out in the middle. The spheres are highly reflective, showing highlights and shadows. The background is a solid blue color.

The opposite of Othering is *not* saming but belonging.

Our goal is to
create a beloved
community and
this will require
a qualitative
change in our
souls as well as
a quantitative
change in our
lives.

Structures & Systems

We are all situated within structures but not evenly.

Structures are not neutral.

Power gives us greater access to structures and more ability to shape structures.

These structures interact in ways that produce different outcomes

Opportunity Structures

- **Opportunity structures** are the webs of influence beyond our individual control that enhance and constrain our ability to succeed and excel
- Life changes are shaped by opportunity structures, and those structures are just as important, if not more so, than the choices that individuals make

Belonging or being fully human means more than having access. Belonging entails being respected at a basic level that includes the right to both co-create and make demands upon society.

Belonging

Heart of Belonging: co-creating & being seen

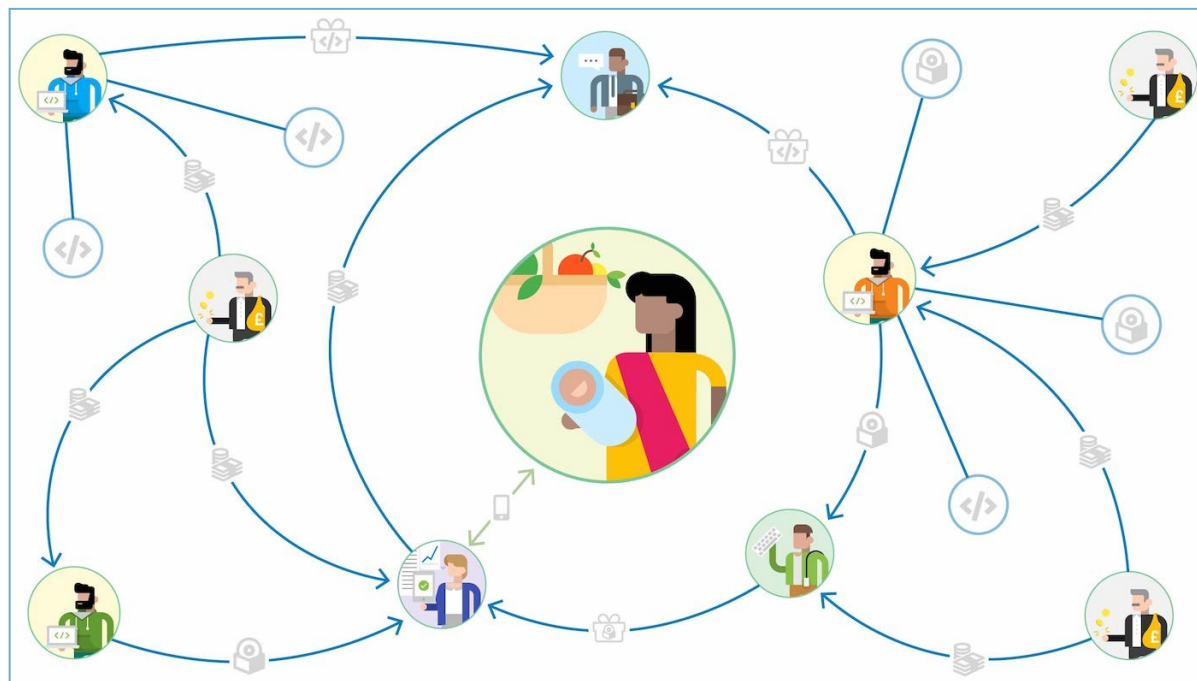

Exclusion

Inclusion

Belonging

A just and inclusive society will see all of its members as inside our circle of belonging.

Race as Socially Constructed

"Race is an idea, not
a fact."

--Nell Irvin Painter (Historian)

RACE

THE POWER OF AN ILLUSION

What men believe to be true is
true in its consequences.

-Alfred North Whitehead

Bridging On the One Hand, Breaking on the Other

BREAKI

NG Social ties among an exclusive group who explicitly push away from other groups who are seen as dangerous or a threat.

BRIDGI

Breaking and Bridging

There are **short bridges** and **long bridges**.

Some bridges require more effort to build and maintain. Others are a short distance.

Transactional vs Transformational

Transactional Leadership	Transformational Leadership
Leadership is responsive and its basic orientation is dealing with present issues	Leadership is proactive and forms new expectations in followers
Works within the organizational culture	Works to change the organizational culture by implementing new ideas

From Diversity, Equity, and Inclusion to Bridging and Belonging

Why move from DEI to Bridging and Belonging?

- We don't want to just welcome people into existing structures
- We want people to co-create structures and institutions together
- We want to build systems that are welcoming to all and that everyone has a stake in, systems that everyone has constructed cooperatively. Where everyone is represented and the work of bridging happens through co-creation

3 Levels of Racism

1. Institutionalized racism
2. Personally mediated racism
3. Internalized racism

Institutionalized racism

- Initial historical insult
- Structural barriers
- Inaction in face of need
- Societal norms
- Biological determinism
- Unearned privilege

Internalized racism

- Reflects systems of privilege
- Reflects societal values
- Erodes individual sense of value
- Undermines collective action

Personally mediated racism

- Intentional
- Unintentional
- Acts of commission
- Acts of omission
- Maintains structural barriers
- Condoned by societal norms
